

Description

The AW-FP300LC is a 1-8 extension loop card that works with the AW-FP300 fire alarm control panel. AW-FP300 can be powered by AW-FP300LC directly or by an external power supply. AW-FP300LC is designed with qualities of simple installation and easy maintenance.

Dimensions

Technical Specification	
Operating voltage	24VDC(22~30V)
Number of loop	1-8
Addresses per loop	324
Operation current	Max. 300mA each
Type	Class A
Recommended type of loop cable	Unscreened twisted-pair, 1.5mm ²
Loop transmission distance	≤1000m
Compatible panel	FP300
Communication with panel	CAN
Operating condition	Temperature range: -4°C~45°C; Max relative humidity: 95%(40°C±2°C, no condensation)
